Watermarks, page numbers	PDF ⇔ Word, Excel, PowerPoint
Print and save, no watermark	Redaction, AES-256, batch, compare

MODULE 01

Getting started

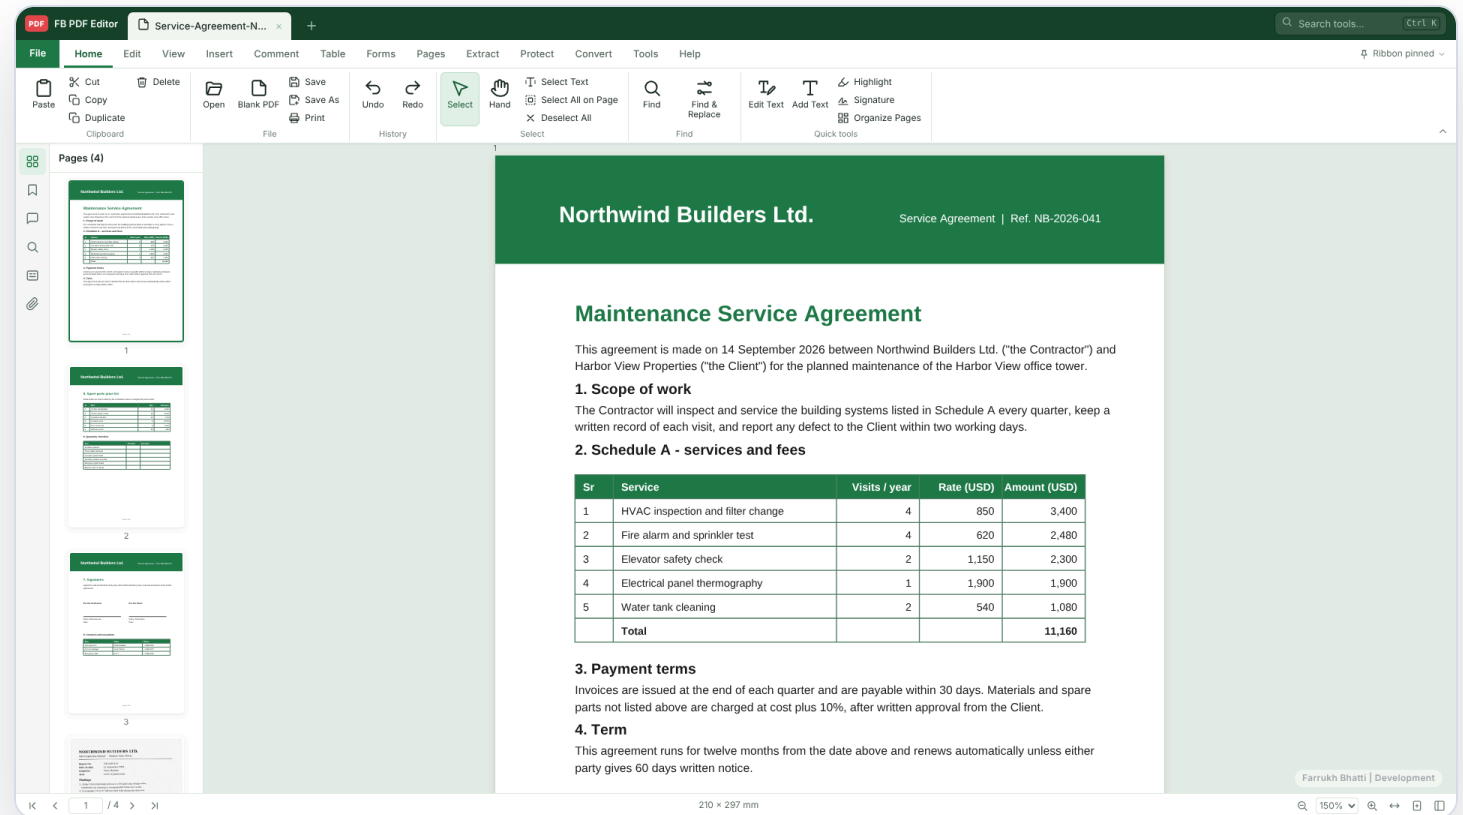

Install from the Microsoft Store, open files and learn the screen.

01

MODULE 1

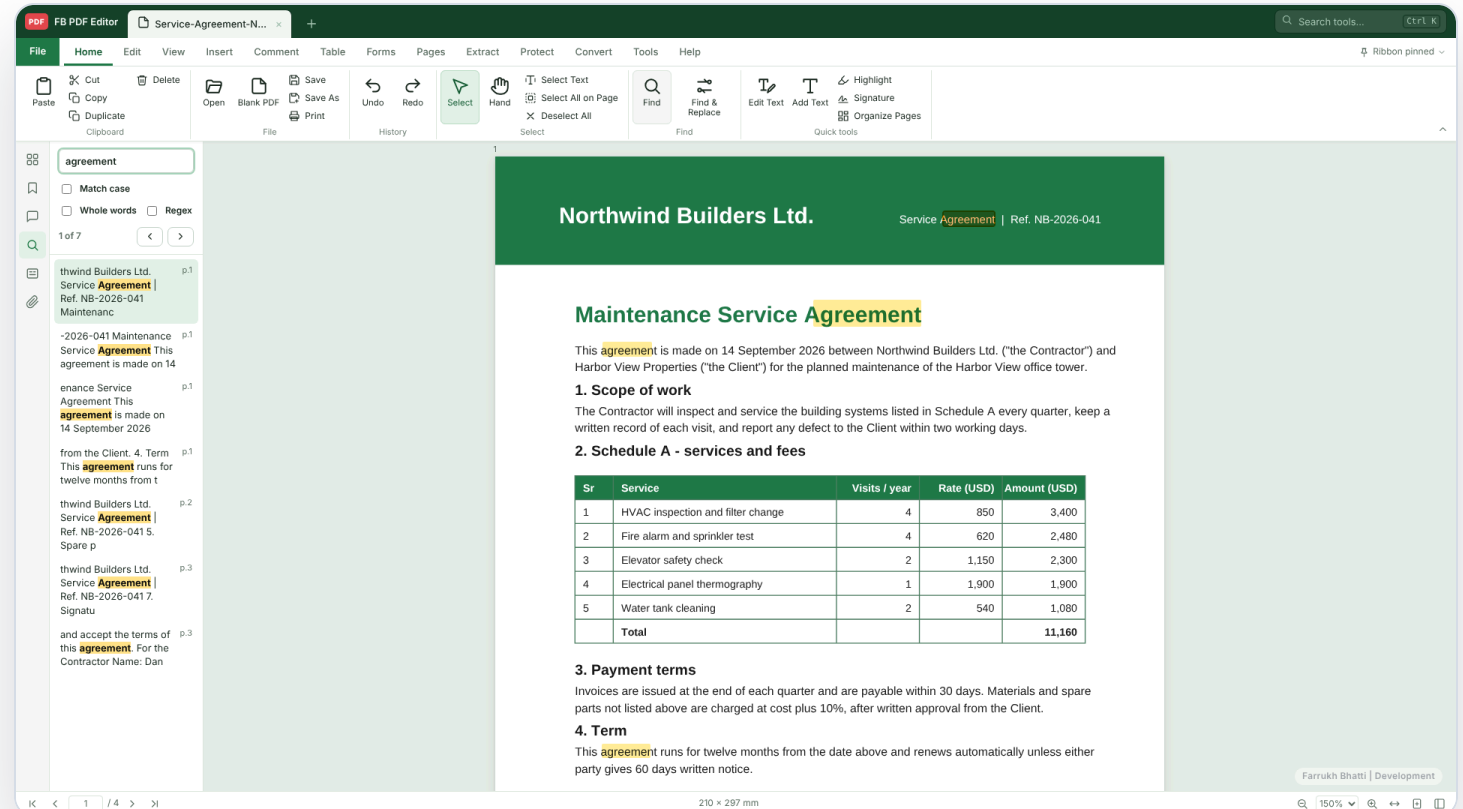

The screen

- **Tabs** at the top: one per open file
- **Ribbon**: File, Home, Edit, Insert, Comment, Table, Pages, Convert...
- **Sidebar**: pages, bookmarks, comments, search
- **Ctrl+K** finds any command by name

Opening and finding

- **Open** (**Ctrl+O**), drag files in, or Open with
- **Zoom**: **Ctrl+=** / **Ctrl+-**, fit page **Ctrl+1**
- **Find** (**Ctrl+F**) lists every match with its page
- Nothing changes until you **Save**

MODULE 02

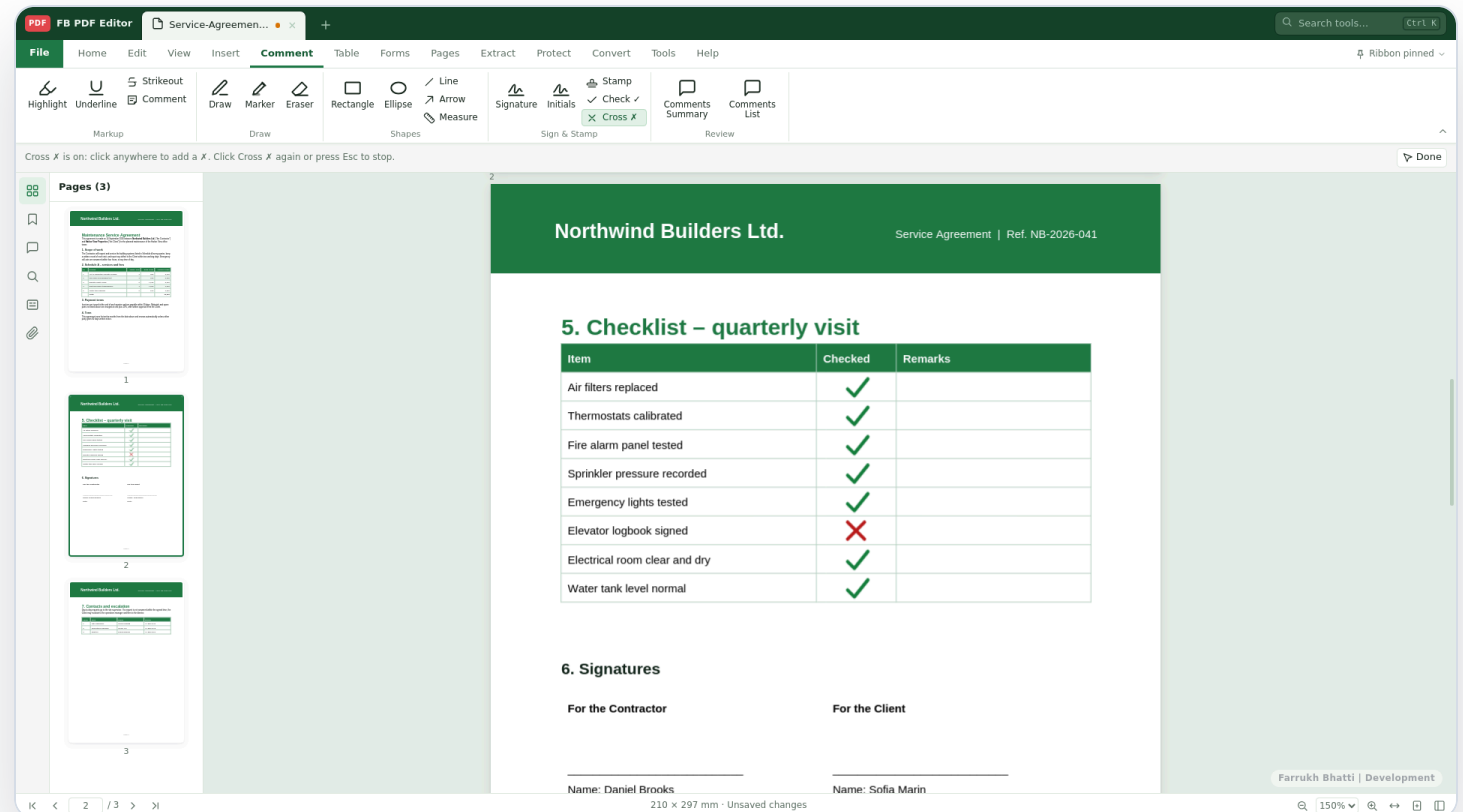

Review and tables

Mark up documents, tick checklists and work with tables.

02

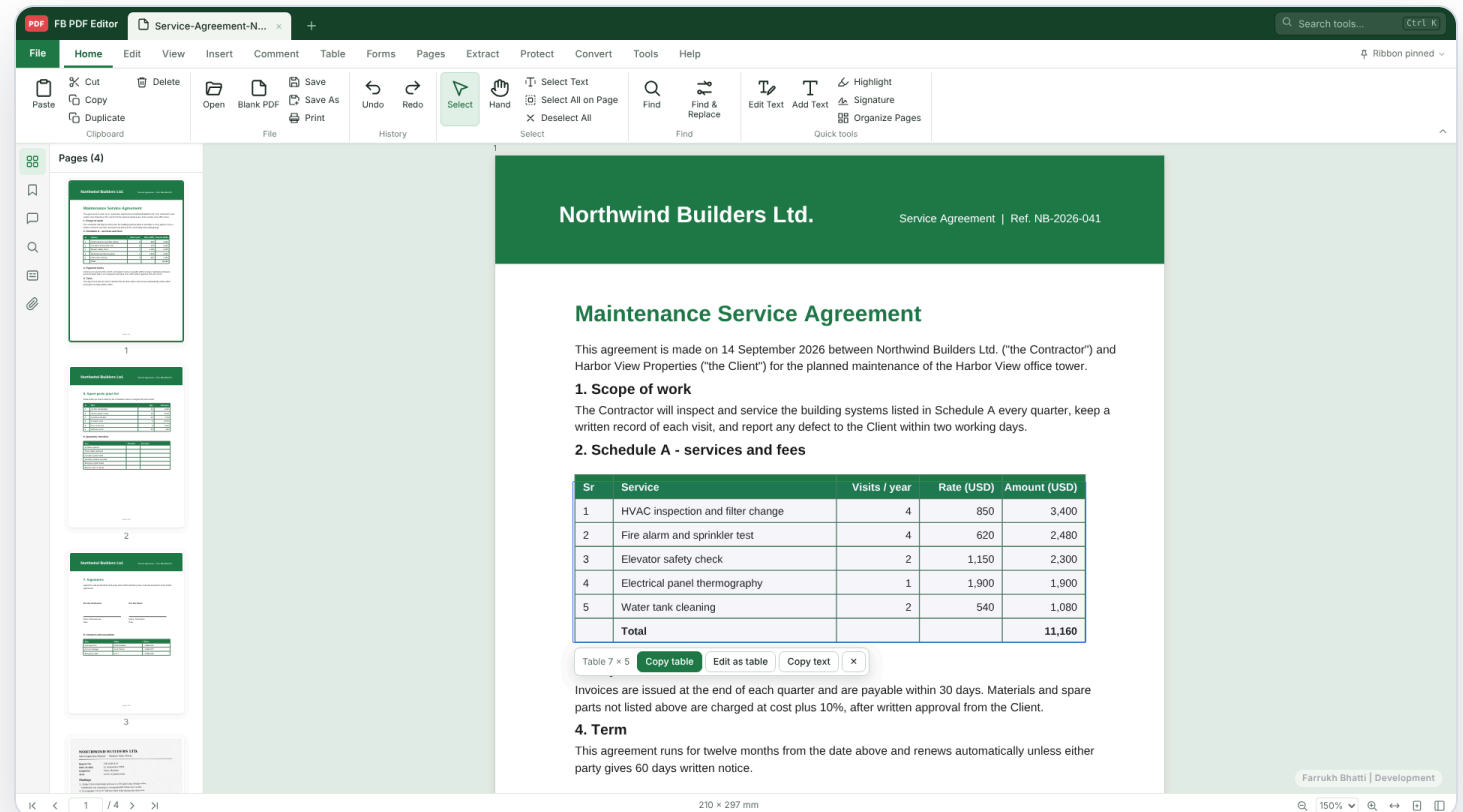

Markup and checklists

- **Comment** tab: highlight, underline, notes
- Draw, shapes, arrows and measure
- **Check ✓ / Cross ✕** for checklists
- Every mark stays editable until saved

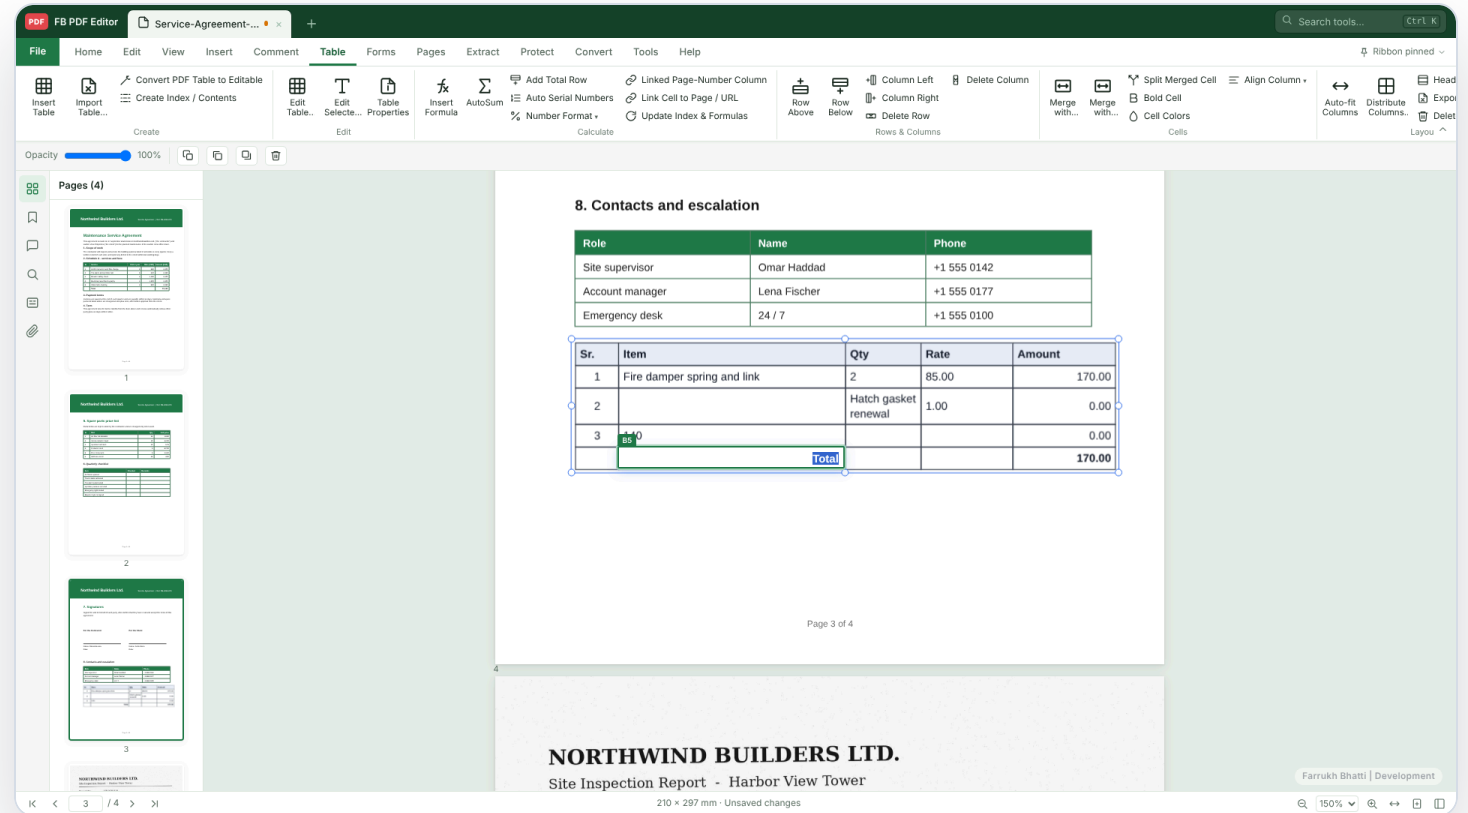

Copy a PDF table to Excel

- 1 Choose **Select**
- 2 Drag over the table on the page
- 3 Click **Copy table**
- 4 Paste into Excel or Word

Calculation tables

- 1 **Table > Insert Table > Calculation**
- 2 Click on the page
- 3 Type item, qty, rate; **Tab** to move
- 4 Amounts and total update by themselves

Build a price table

YOUR TASK

- 1 Open any PDF and go to an empty part of a page
- 2 Insert a **Calculation** table
- 3 Add three items with quantities and rates
- 4 Change one quantity and watch the total

Check: the Total row equals the sum of the Amount column.

MODULE 03

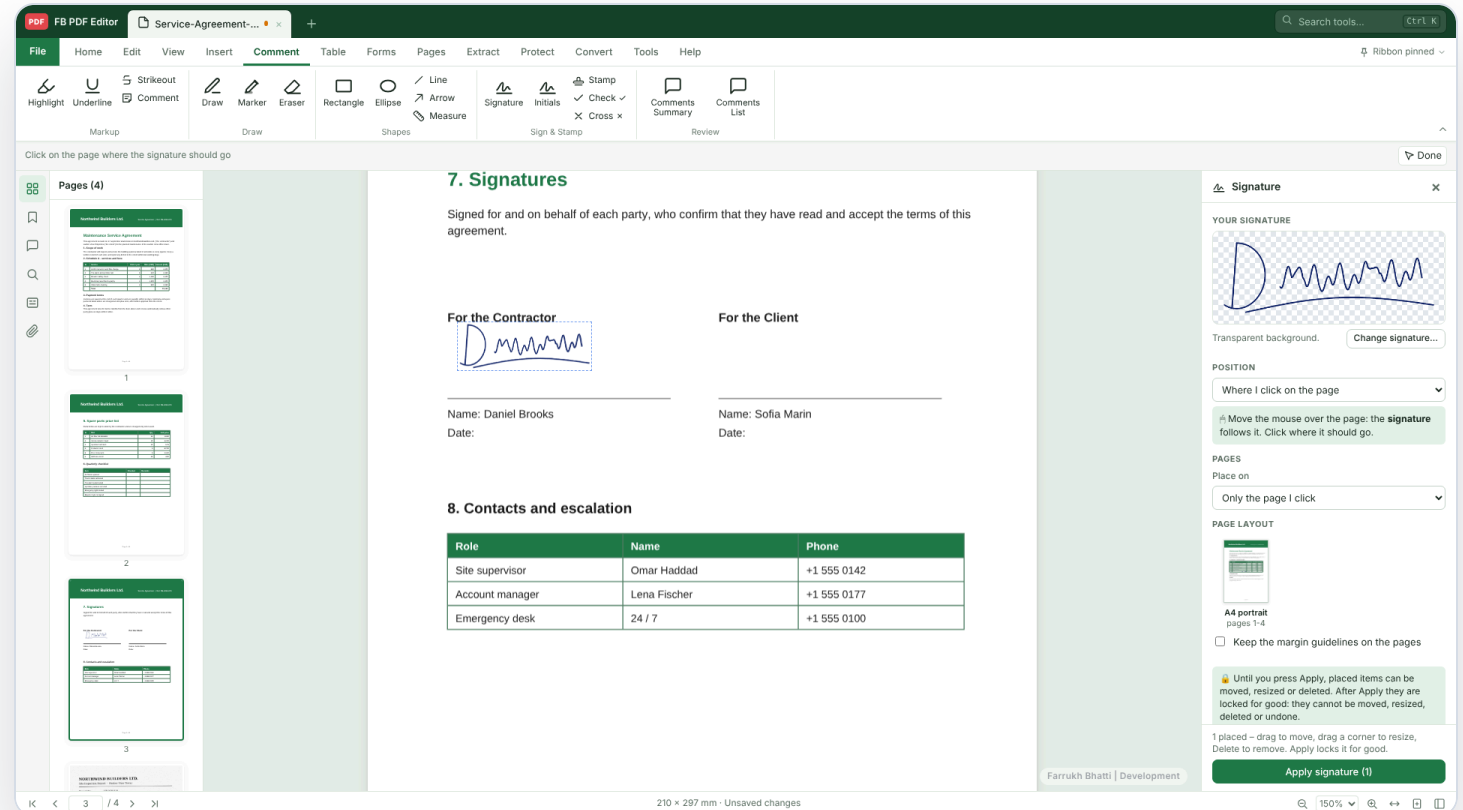

Sign and stamp

Signatures, initials, standard stamps and your company seal.

03

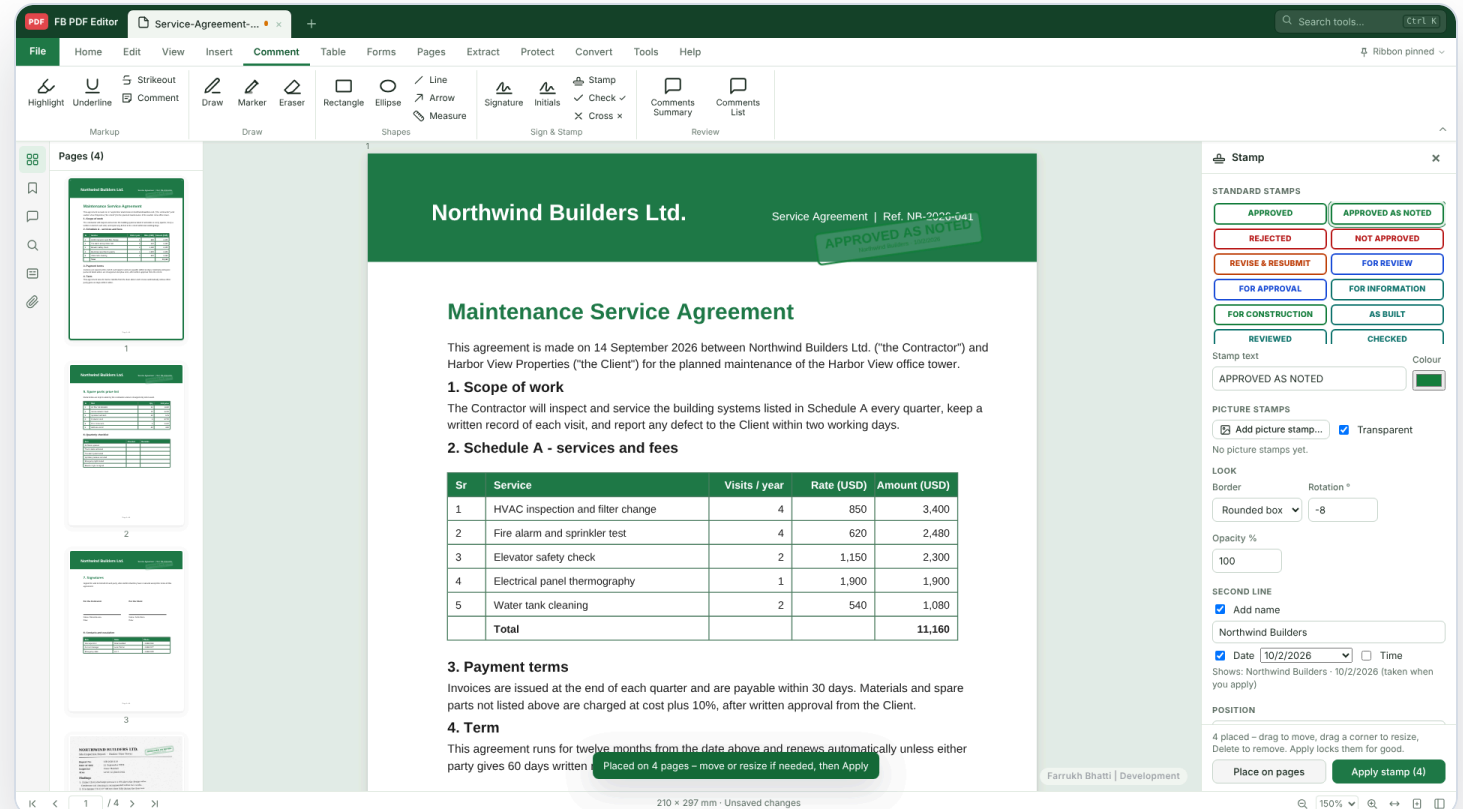

Signatures

- 1 **Comment > Signature:** draw, type or upload
- 2 Choose **Where I click** and click the line
- 3 Or **Fixed position + All pages**
- 4 **Apply signature** locks it for good

Stamps

- 26 standard stamps, or your own text
- Second line: name, date and time
- Position in % of the page, any page size
- Picture stamps for your company seal

Sign and stamp a document

YOUR TASK

- 1 Draw your signature and place it on a signature line
- 2 Stamp **APPROVED AS NOTED** with your name on all pages
- 3 Add your seal as a picture stamp
- 4 Apply, then save as a new file

Check: after Apply, the stamps can no longer be moved.

MODULE 04

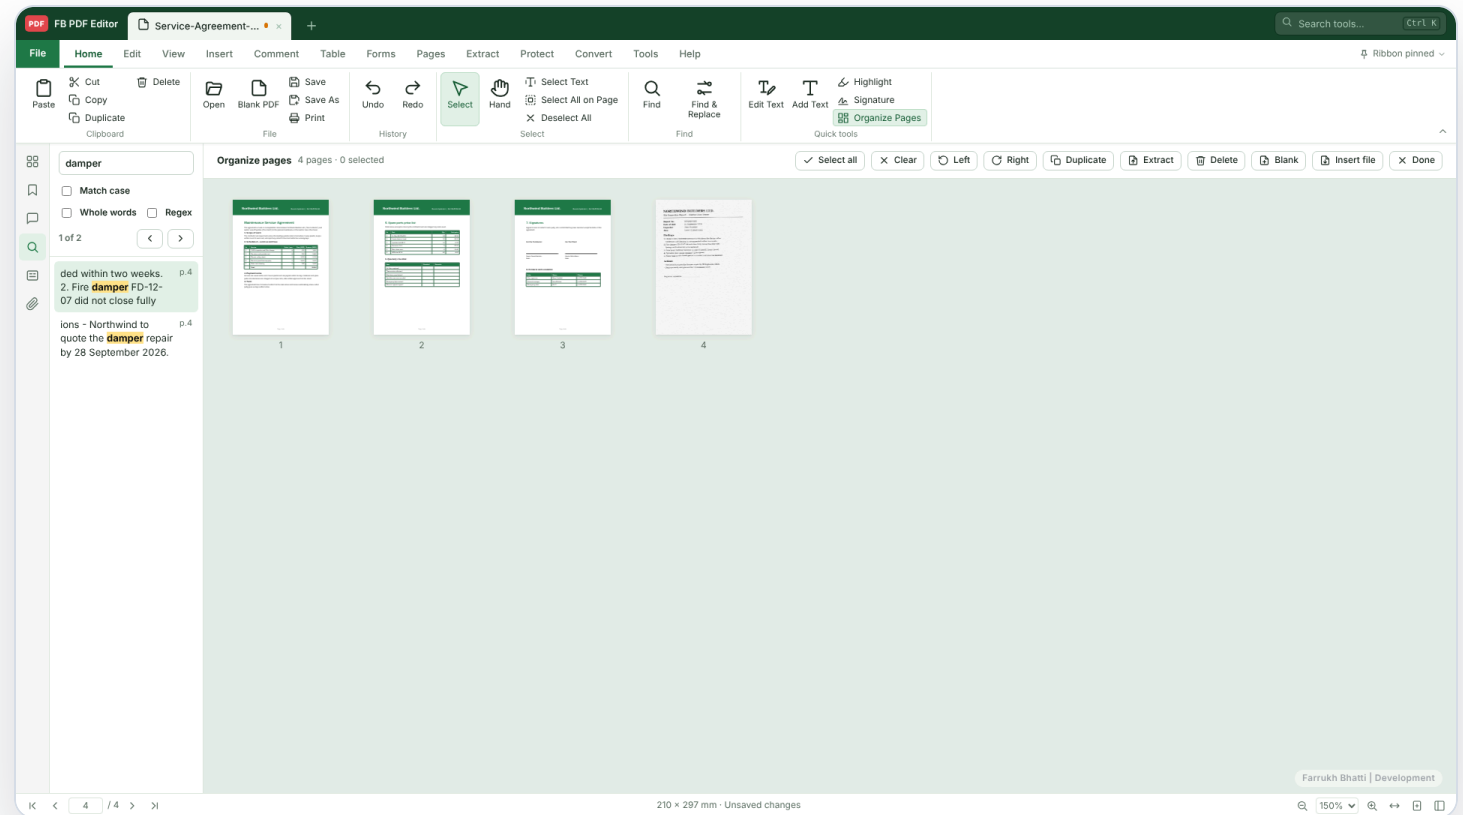

Pages, OCR and conversion

Organize documents, read scans and export to Office.

04

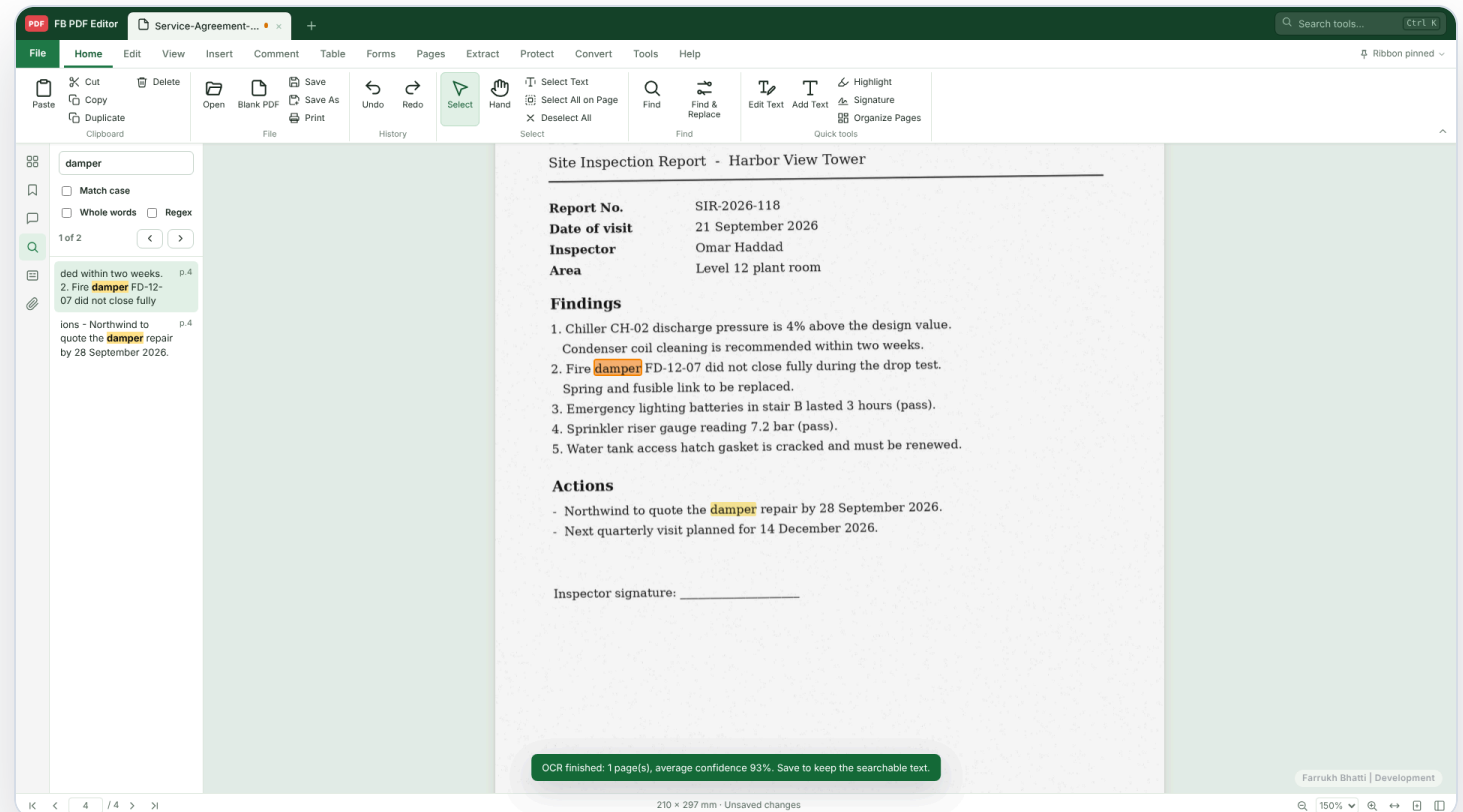

Organize pages

- **Organize Pages (**Ctrl+Shift+O**)**
- Drag to reorder; rotate, duplicate, delete
- Drag files in to insert pages
- Merge files with covers and contents (Pro)

OCR: make scans searchable

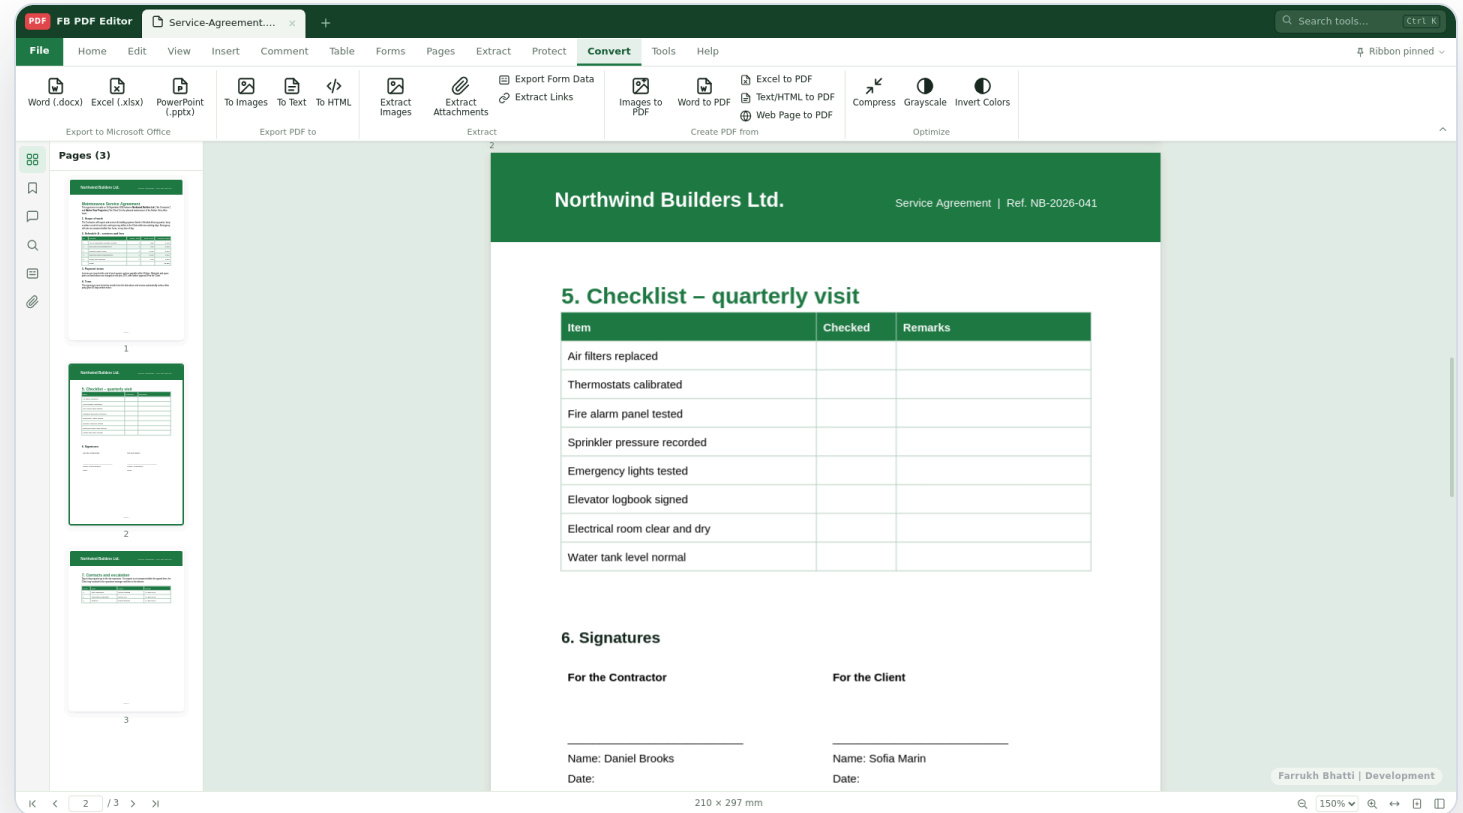

- 1 Tools › OCR Text Recognition
- 2 Tick the language(s) of the page
- 3 Start OCR: a few seconds per page
- 4 Now **Find** and copy work on the scan

MODULE 4

Convert and export

- PDF to **Word, Excel, PowerPoint** (Pro)
- Pages to images, text or HTML
- Create PDFs from images, Word, Excel, web
- Compress and grayscale

REMEMBER

Key points

SAVE

Nothing changes until Save

Use Undo freely. Save As keeps the original.

APPLY

Apply locks for good

Signatures and stamps can be adjusted until you click Apply.

HELP

Ctrl+K and Ctrl+/

Find any command by name, and see every shortcut.

THANK YOU
