TRAINING COURSE

Highlight cursor

Never lose your mouse pointer again: in meetings, presentations and recordings.

WHY

A pointer everyone can follow

VISIBLE

Easy to see

A bright circle follows the pointer everywhere on the screen.

CLICK-THROUGH

Never in the way

Click, drag and type exactly as usual.

ONE KEY

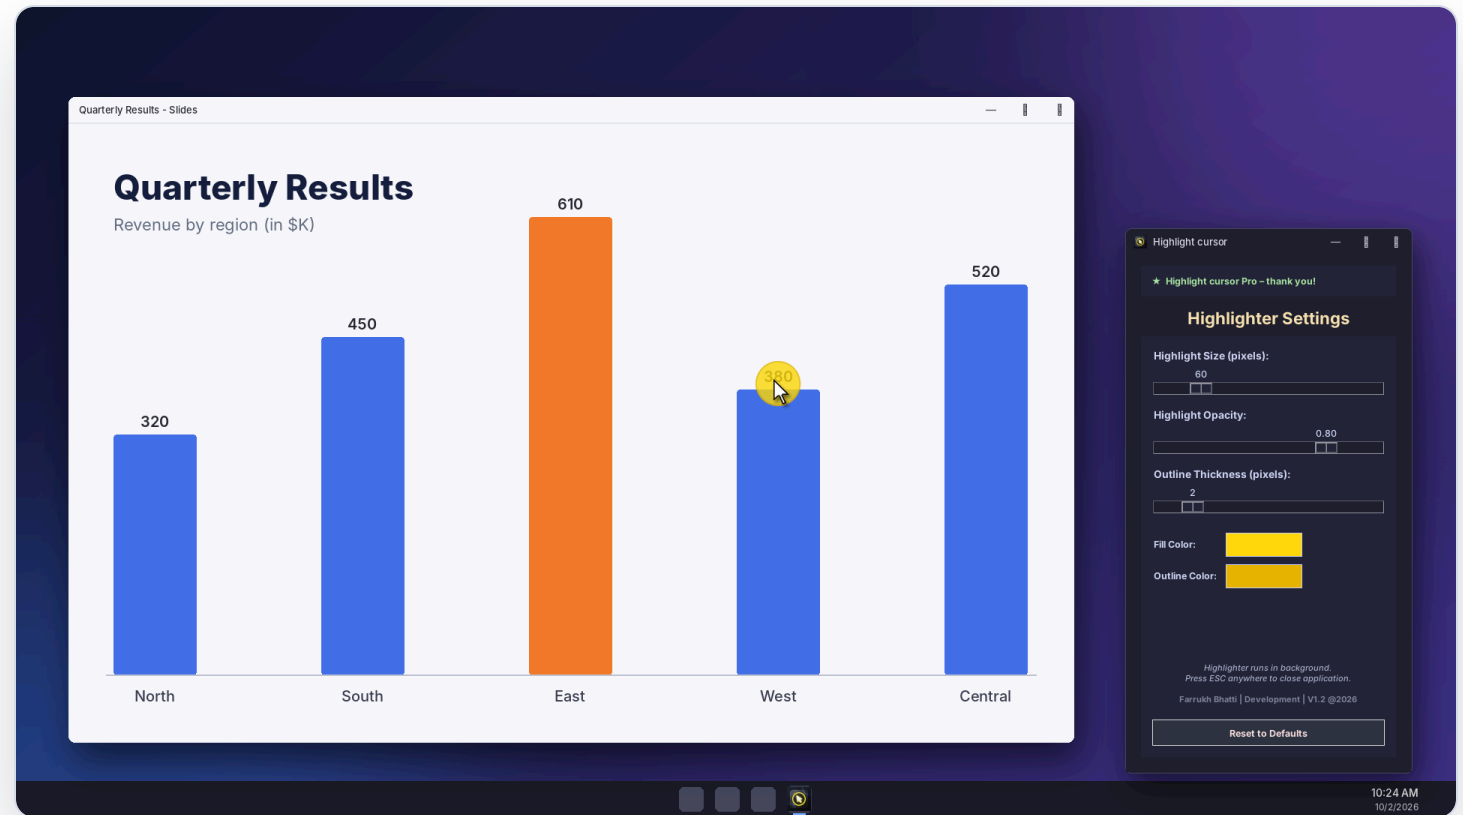

Esc to exit

Press Esc anywhere and it is gone.

GETTING STARTED

Start in one click

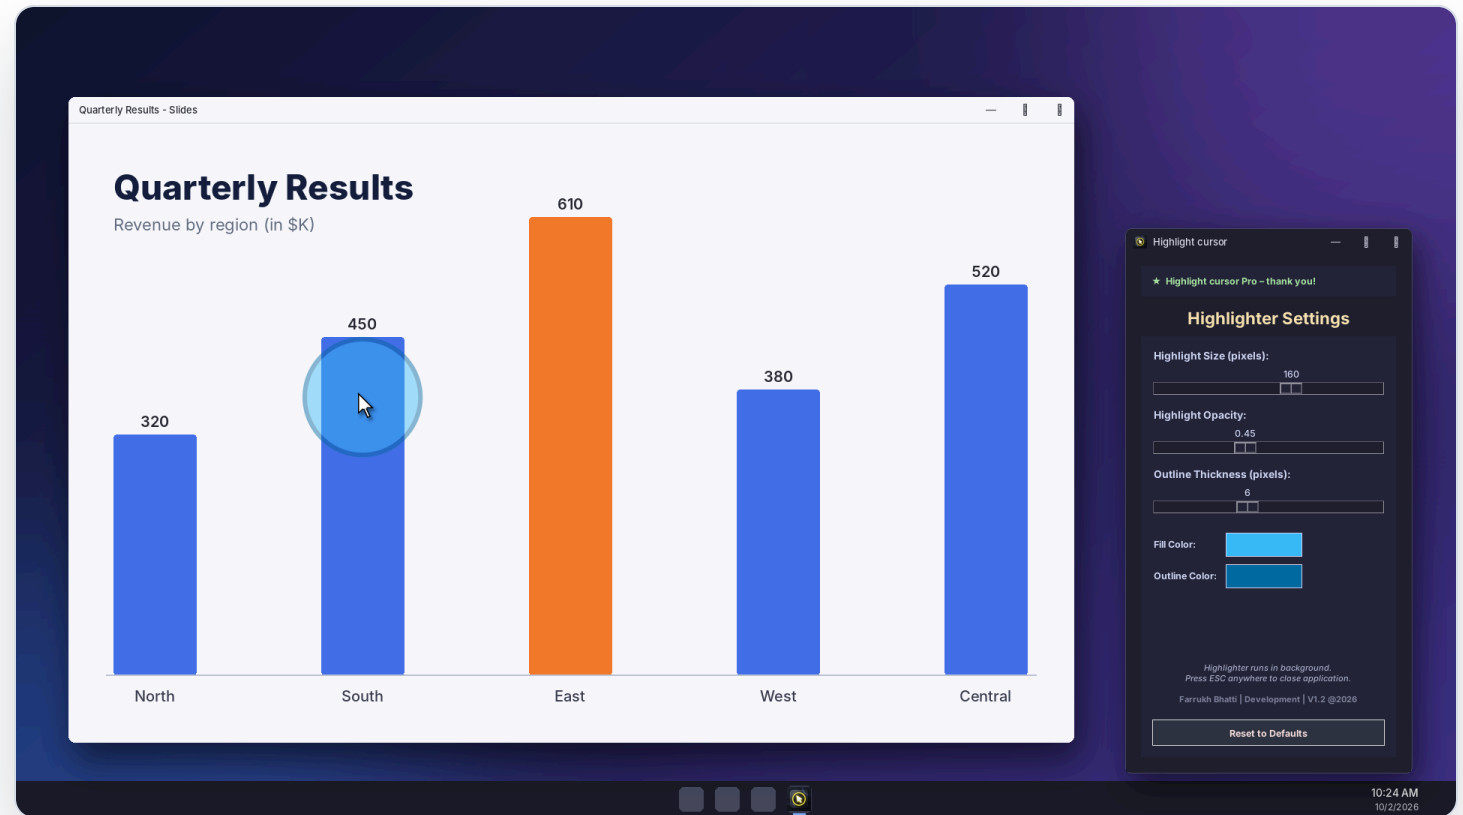

- 1 Install from the Microsoft Store
- 2 Start it from the Start menu
- 3 The circle follows your pointer at once
- 4 Settings are saved for next time

SETTINGS

Make it yours

- **Size:** 20 to 100 px, up to 250 px with Pro
- **Opacity** and **outline** (Pro)
- **Fill** and **outline colour** (Pro)
- **Reset to Defaults** any time

Free and Pro

Free	Pro (one-time)
Yellow highlight	Any fill and outline colour
20 to 100 px	Up to 250 px
Click-through, Esc to exit	Opacity and outline thickness

Set up for your next meeting

YOUR TASK

- 1 Start Highlight cursor
- 2 Make the circle 100 px (the largest Free size)
- 3 Lower the opacity to 0.5 (Pro)
- 4 Share your screen and point at something, then press Esc

Check: the text under the circle is still readable.
