

Engineering Tools FB

OPERATION MANUAL

Organization Chart FB

Build, style and export clear organization charts in minutes. Works offline.

Contents

01	Introduction	What the program does, Free and Pro
02	Installing and starting	Microsoft Store, the dashboard
03	The chart builder	Canvas, controls, toolbar
04	Adding and editing people	Positions, details, reporting lines
05	Split View and Table Editor	Edit like a spreadsheet
06	Styling the chart	Cards, layout, colours, background
07	Importing a staff list	CSV and Excel with validation
08	Exporting, printing and sharing	PNG, PDF, SVG, Excel, .orgchart
09	Troubleshooting and support	Common questions

This manual explains how to install and use **Organization Chart FB 1.1**, step by step. The pictures show the real program. Tools marked **PRO** need the one-time Pro upgrade from the Microsoft Store. Training slides and how-to videos are in the Download Center at engineeringtoolsfb.com/downloads.

01 Introduction

Organization Chart FB turns a staff list into a clear, professional organization chart. You add people and say who reports to whom; the chart arranges itself with no overlapping boxes. You can move people by drag and drop, restyle the whole chart with one click, and export it for a report, a slide deck or a wall poster.

Everything stays on your PC: no account, no sign-up, no cloud upload.

Free and Pro

Feature	Free	Pro (one-time purchase)
Build, edit, drag and drop, auto-arrange	Yes	Yes
Card styles	Classic	All 5: Classic, Executive, Compact, Corporate, Modern Glass
Layout directions	Top to Bottom	All 4: Top to Bottom, Left to Right, Bottom to Top, Right to Left
Positions per chart	25	Unlimited
Own charts (samples do not count)	3	Unlimited
PNG export and printing	Yes, with a small watermark	Yes, no watermark
SVG, PDF, Excel and CSV export	-	Yes
Import	CSV and .orgchart	CSV, .orgchart and Excel (.xlsx)

System requirements

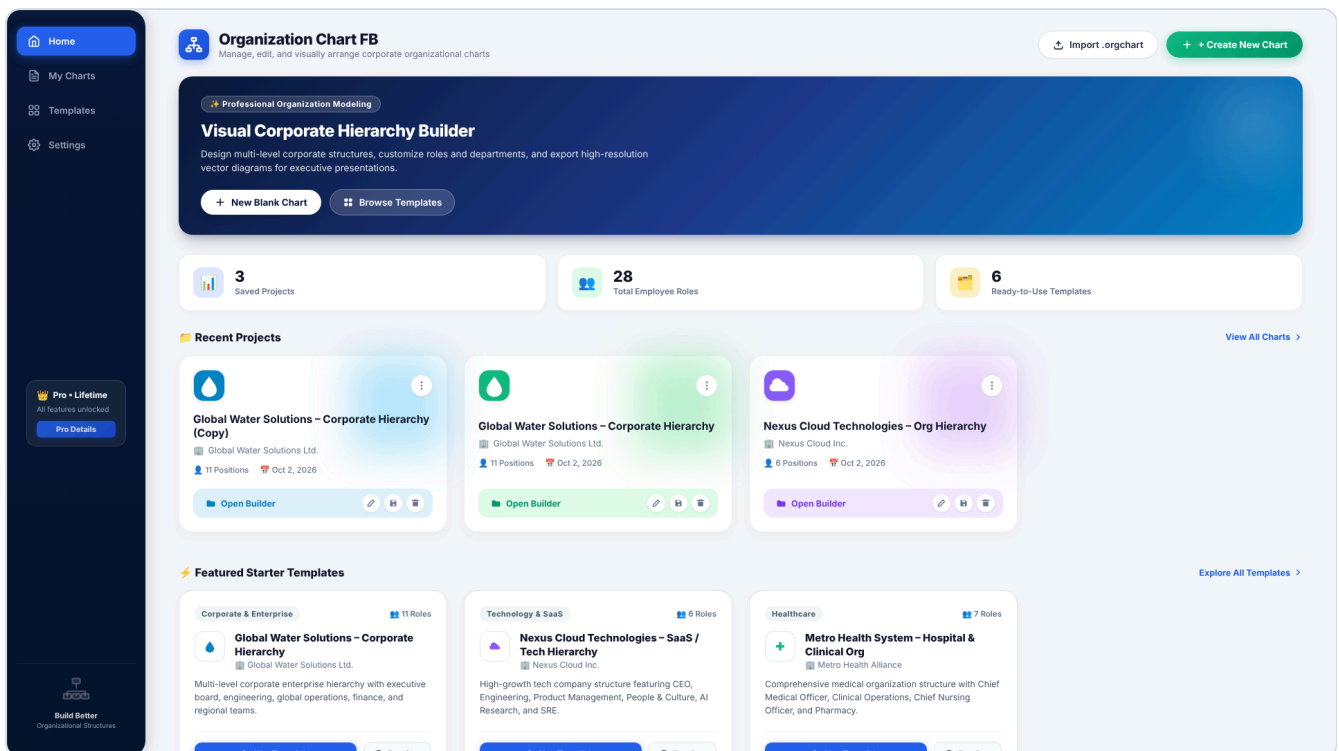

- Windows 10 (version 1809 or later) or Windows 11, 64-bit.
- No internet connection is needed.

02 Installing and starting

- 1 Open the **Microsoft Store**, search for **Organization Chart FB** and click **Get**.
- 2 Start it from the **Start menu**.

The dashboard

The program opens on the **dashboard**. On the left are **Home**, **My Charts**, **Templates** and **Settings**. The middle shows your recent projects and ready-made starter templates.

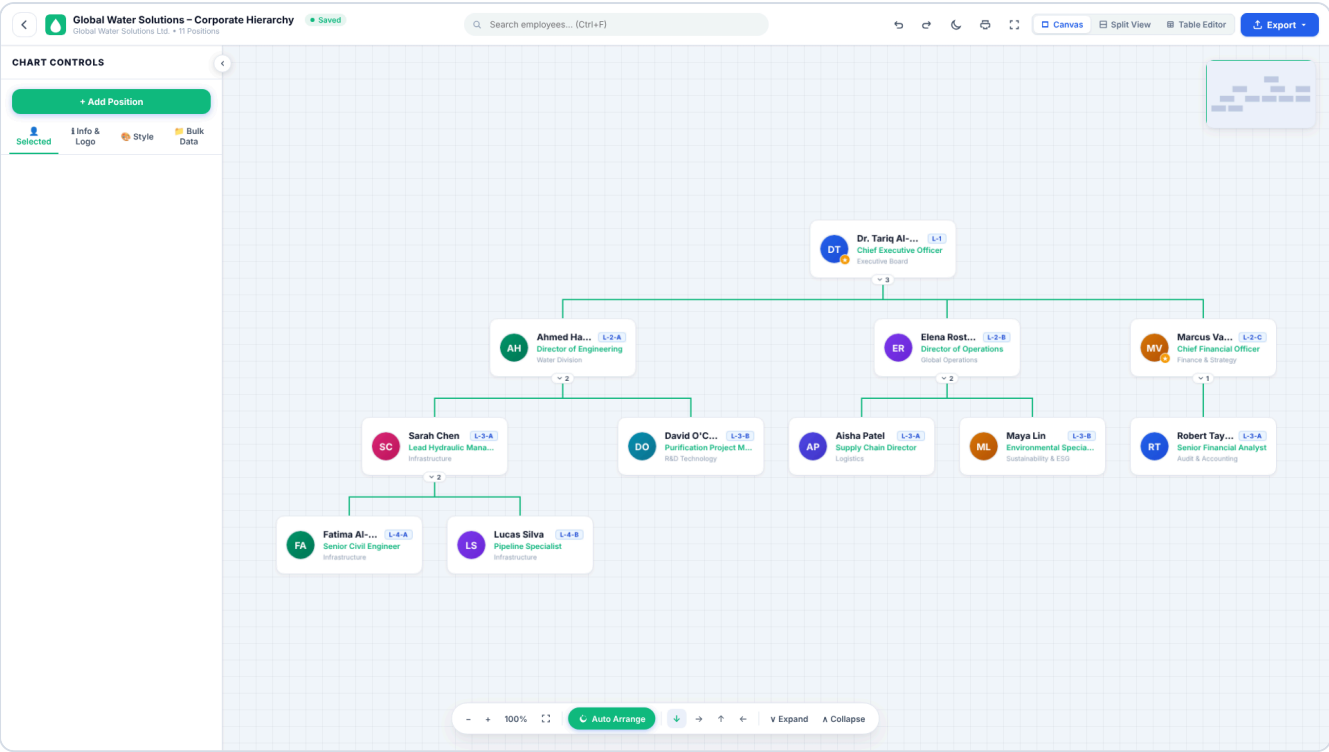

The dashboard with recent projects and starter templates.

- **+ Create New Chart** starts a new chart (blank, or from a template).
- **Open Builder** on a project card opens that chart.
- **Import .orgchart** opens a chart file someone sent you.
- The small icons on a card rename, save (export) or delete the chart.

Templates are ready for corporate, technology, healthcare, manufacturing, education and startup organizations. Click **Use Template** to copy one into your own chart.

03 The chart builder

The chart builder.

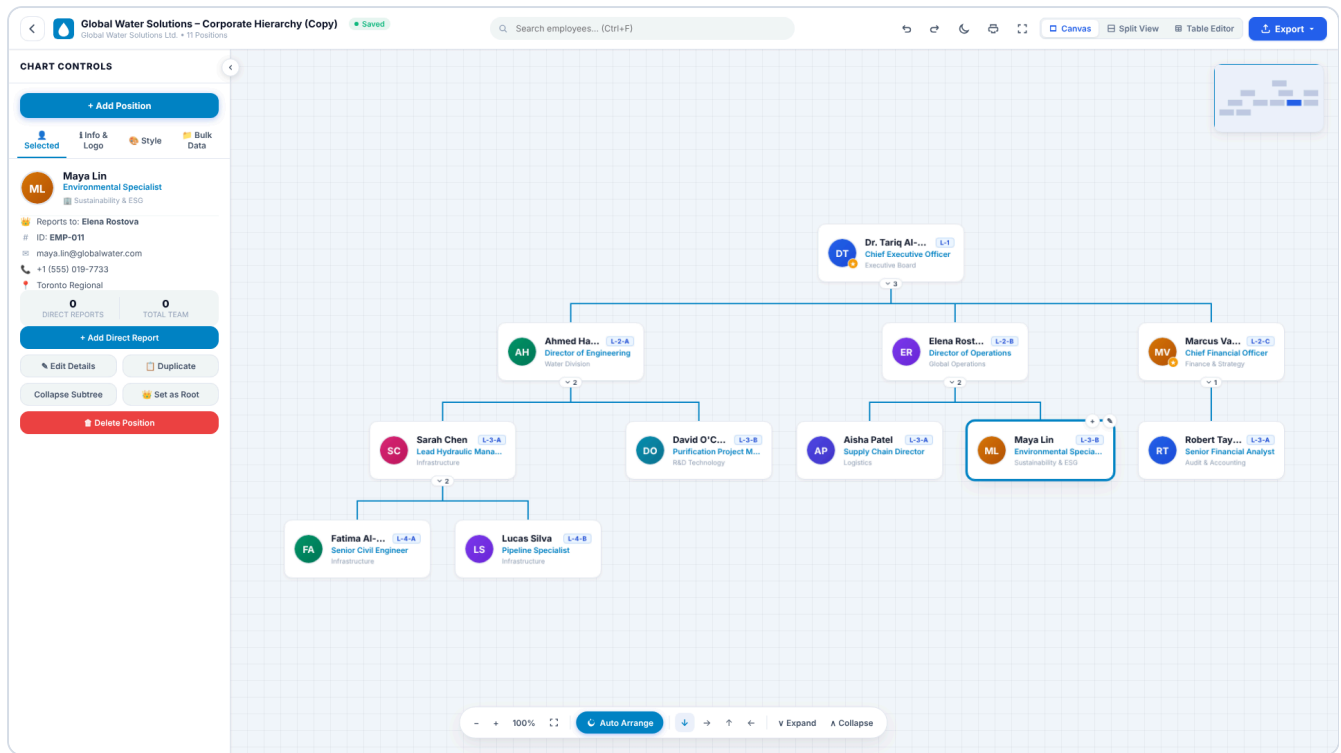

Area	What it does
Top bar	Back to the dashboard, chart name, search, undo/redo, dark mode, print, full screen, and the view switch: Canvas , Split View , Table Editor . Export is on the right.
Chart Controls (left)	+ Add Position and four tabs: Selected (the chosen person), Info & Logo , Style and Bulk Data .
Canvas (middle)	The chart. Scroll to zoom, drag the background to move around.
Mini-map (top right)	Overview of large charts. Click it to jump.
Floating bar (bottom)	Zoom, 100%, fit to screen, Auto Arrange , the four layout directions, Expand and Collapse .

TIP Search (**Ctrl+F**) finds anyone by name, title or department and moves the chart to them.

04 Adding and editing people

Select a person

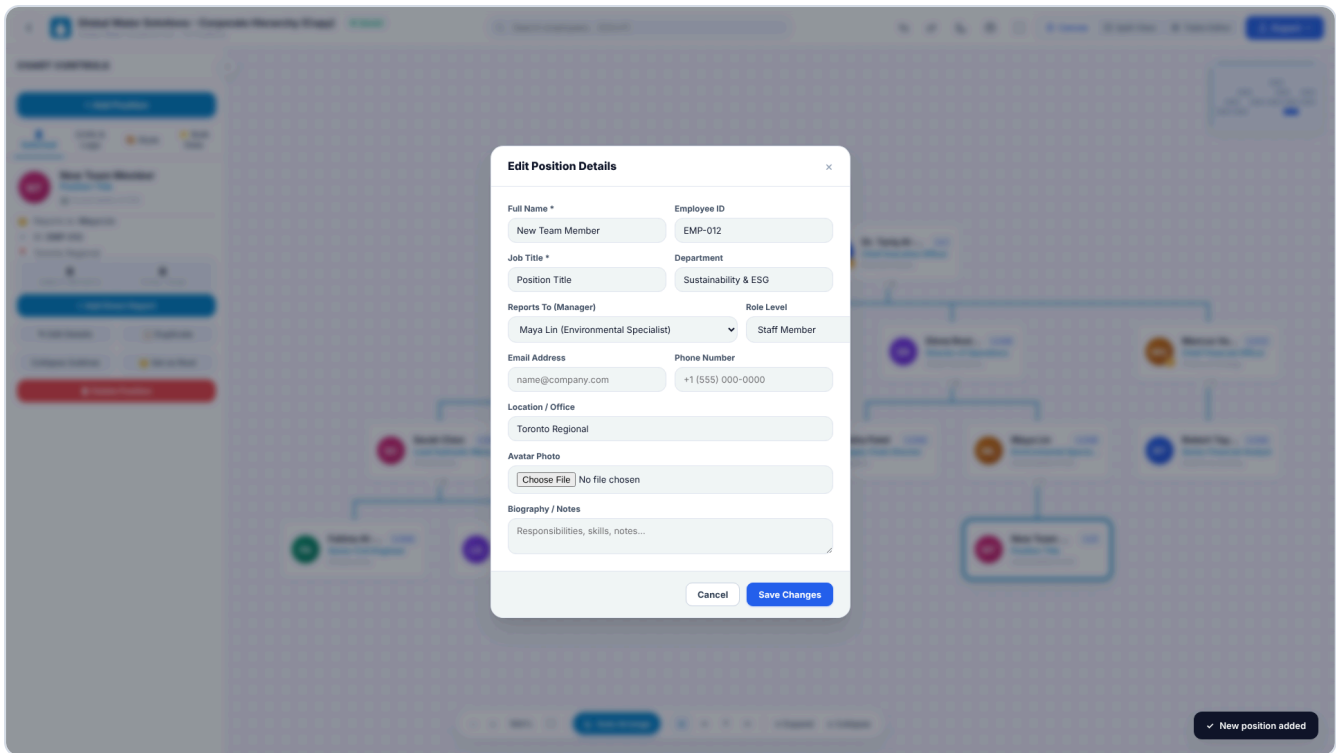

Click a card. The **Selected** tab shows the profile, who they report to, their number of direct reports and total team, and quick actions.

A selected person and the quick actions on the left.

Add someone

- 1 Select the manager.
- 2 Click **+ Add Direct Report** (or **+ Add Position**).
- 3 Type the **Full Name** and **Job Title**. The other fields are optional: Employee ID, Department, Role Level, E-mail, Phone, Location, Photo and Notes.
- 4 Check **Reports To (Manager)**, then click **Save Changes**.

The Edit Position Details window.

Change who someone reports to

- **Drag and drop:** drag a card onto the new manager. The chart re-arranges itself.
- Or open **Edit Details** and pick another **Reports To (Manager)**.

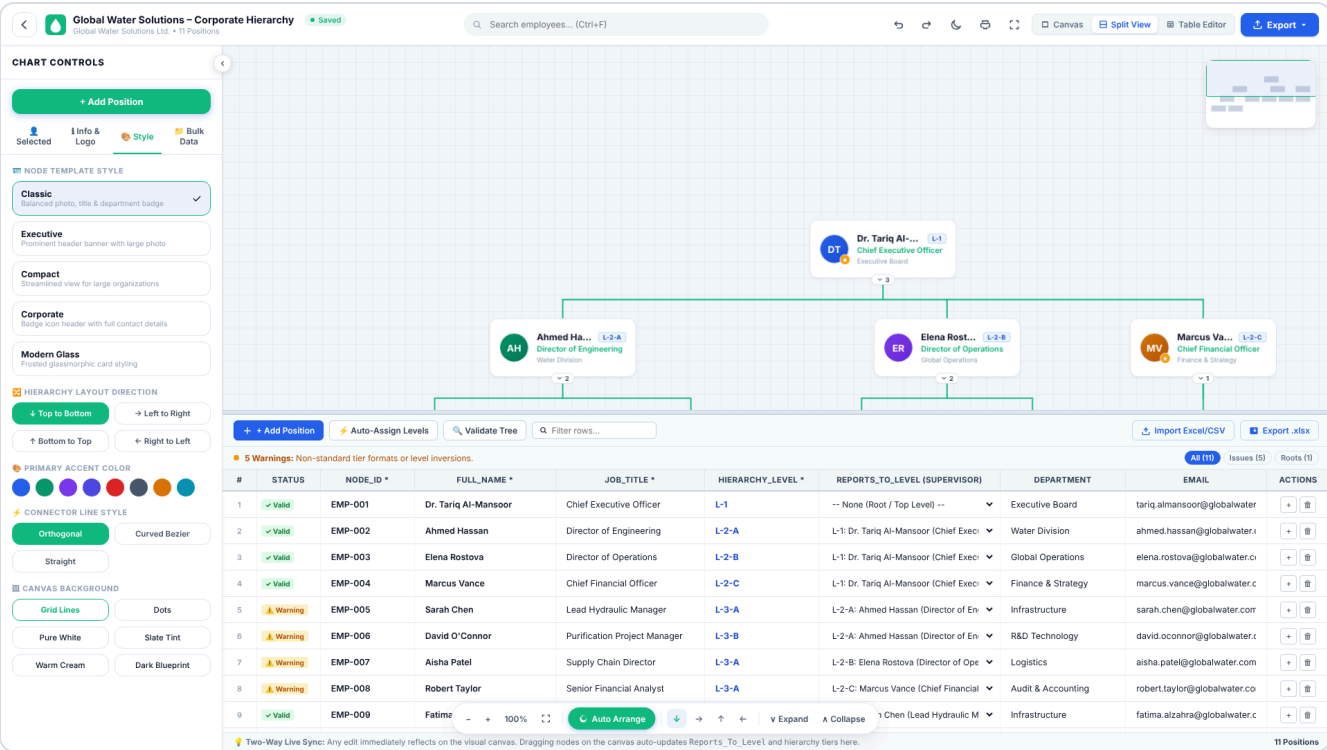

Other quick actions

- **Duplicate** copies a position.
- **Collapse Subtree** hides a team; the small  **3** badge under a card does the same.
- **Set as Root** makes the person the top of the chart.
- **Delete Position** removes the person; their team moves up to their manager.

NOTE The Free edition allows 25 positions per chart. Pro has no limit.

05 Split View and Table Editor

Split View shows the chart and a table of every position at the same time. **Table Editor** shows only the table. Edit cells directly, like a spreadsheet; the chart updates.

Split View: chart above, table below.

The table checks reporting lines as you type. It flags broken links, loops (someone reporting to their own team) and wrong hierarchy levels, so the chart always stays valid.

06 Styling the chart

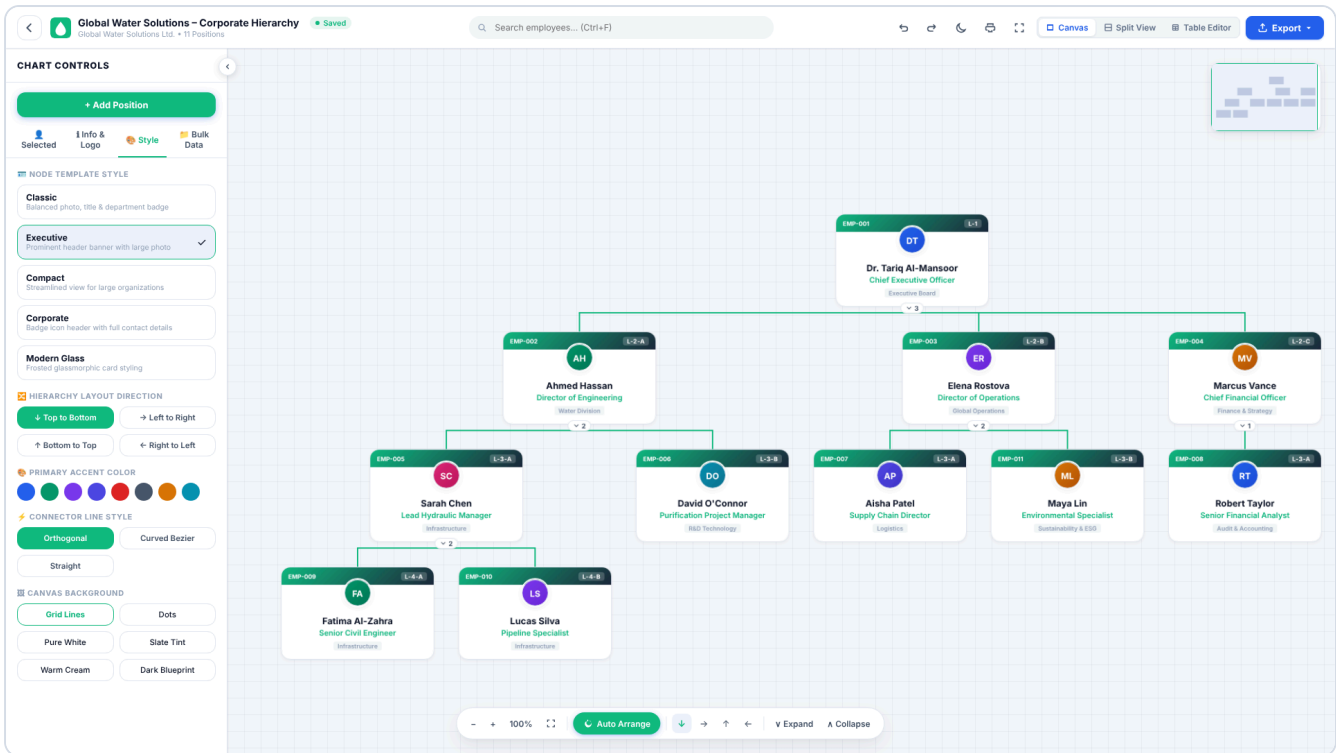

Open the **Style** tab in Chart Controls. Every change applies to the whole chart at once.

PRO Classic and Top to Bottom are free. The other card styles and layout directions are Pro. Charts that use a Pro style still open in Free; for PNG export and printing you are asked to switch back to Classic / Top to Bottom.

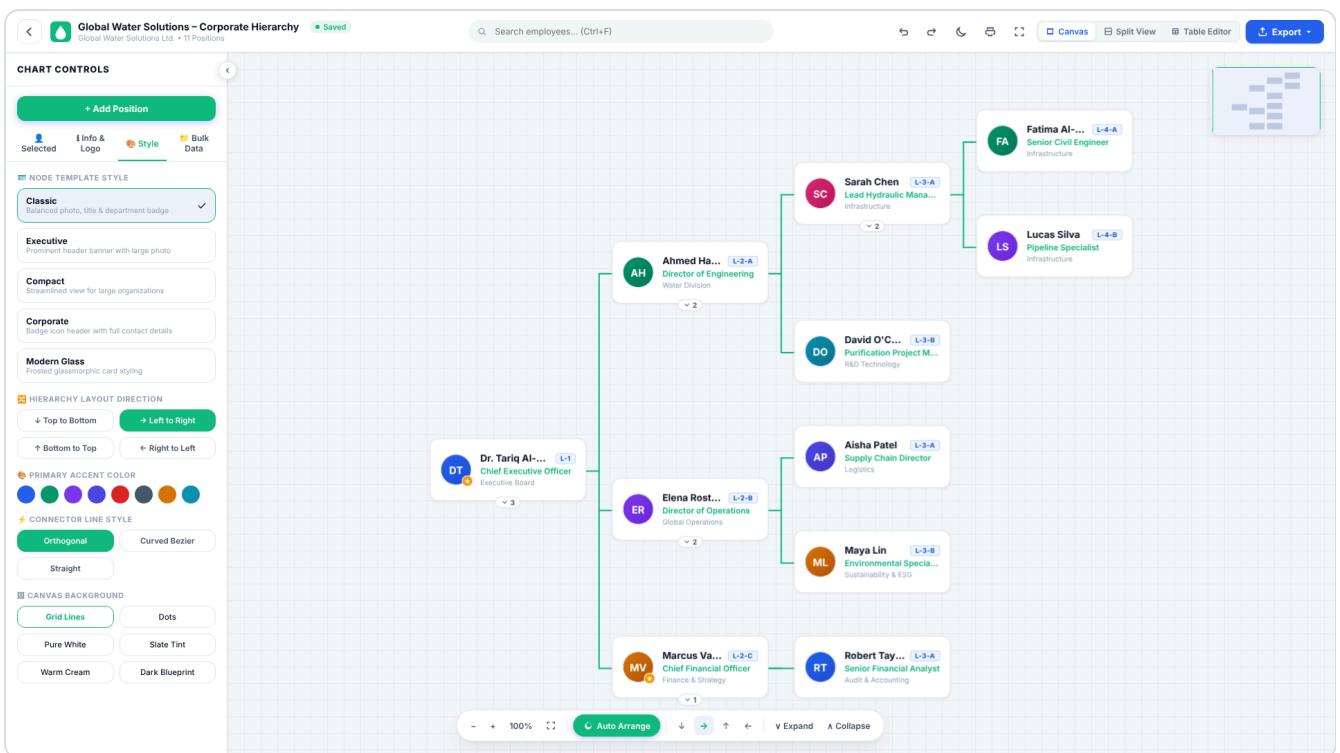

The Style tab.

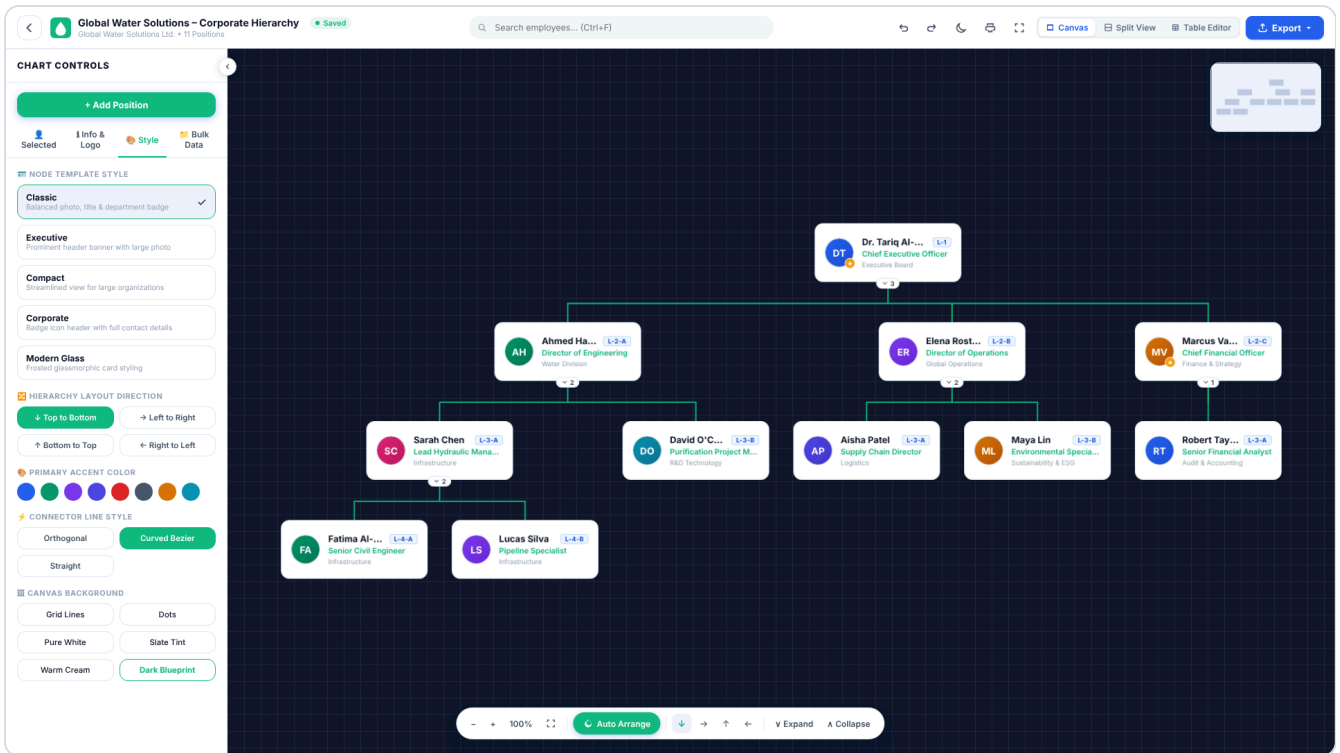

Setting	Choices
Node template style	Classic, Executive, Compact, Corporate, Modern Glass
Hierarchy layout direction	Top to Bottom, Left to Right, Bottom to Top, Right to Left
Primary accent colour	Eight colours, such as royal blue, emerald, violet, crimson and amber
Connector line style	Orthogonal (elbows), Curved Bezier, Straight
Canvas background	Grid Lines, Dots, Pure White, Slate Tint, Warm Cream, Dark Blueprint

Executive style.

Left to Right layout.

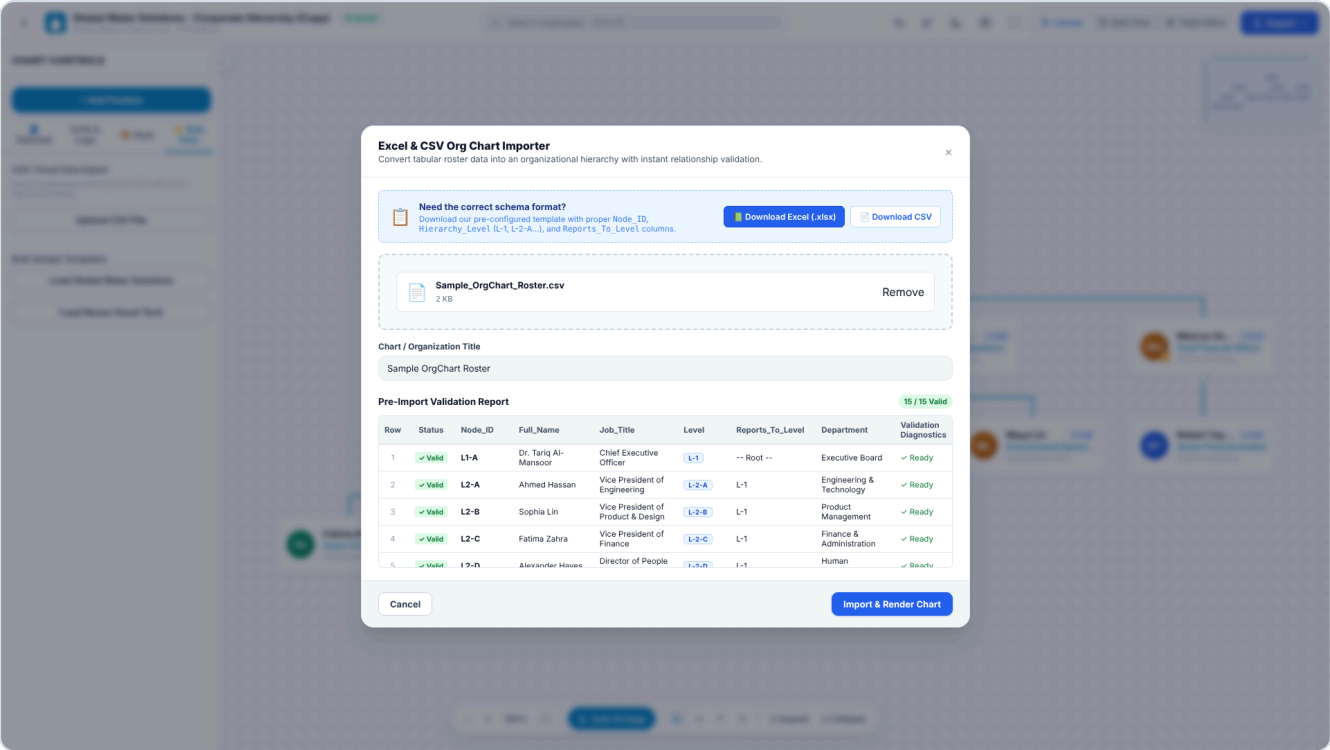

Dark Blueprint background with curved connectors.

The **Info & Logo** tab holds the chart title, company name and logo shown on exports. The **moon** button in the top bar switches the whole app to dark mode.

07 Importing a staff list

PRO CSV import is free. Excel (.xlsx) import is Pro.

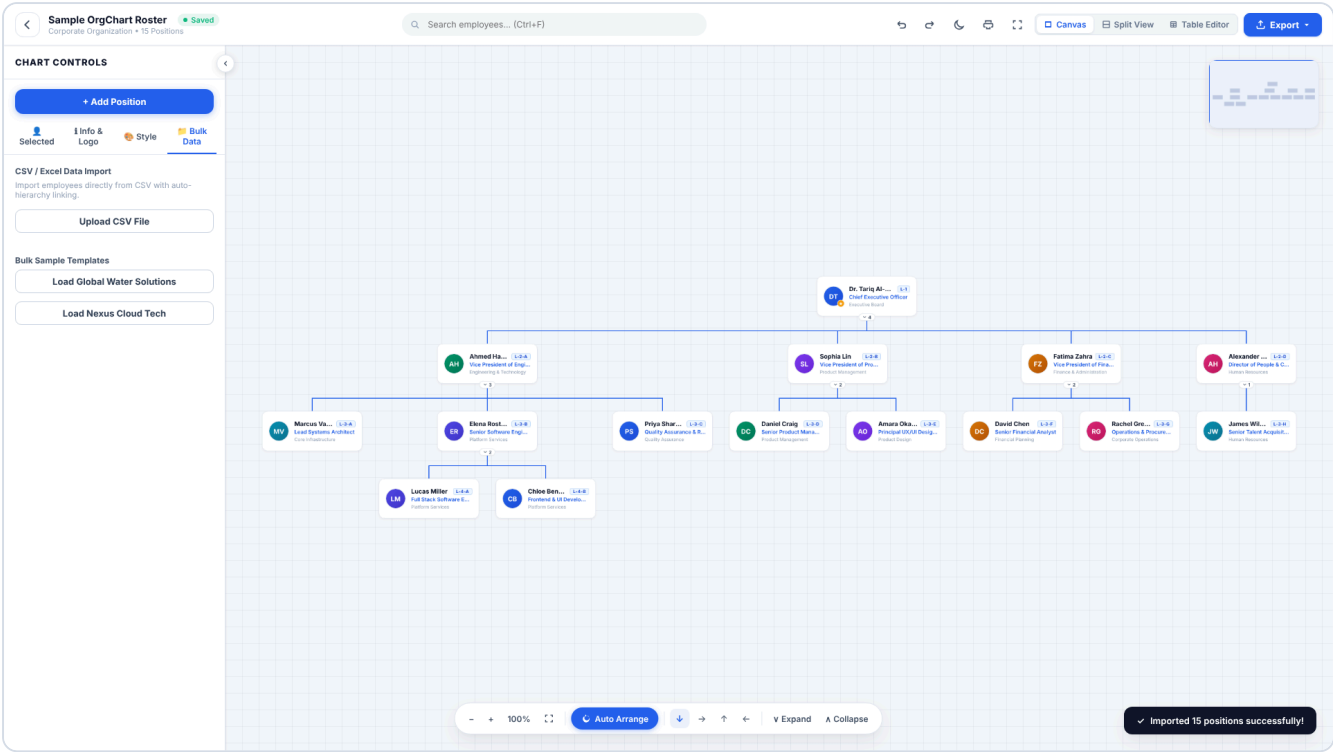

- 1 Open the **Bulk Data** tab and click **Upload CSV File**.
- 2 Not sure about the columns? Click **Download Excel (.xlsx)** or **Download CSV** for a ready template.
- 3 Click **Browse File** (or drag the file onto the box) and choose your roster.
- 4 Read the **Pre-Import Validation Report**: every row is checked before anything is created.
- 5 Type a **Chart / Organization Title** and click **Import & Render Chart**.

The importer with the validation report.

Columns

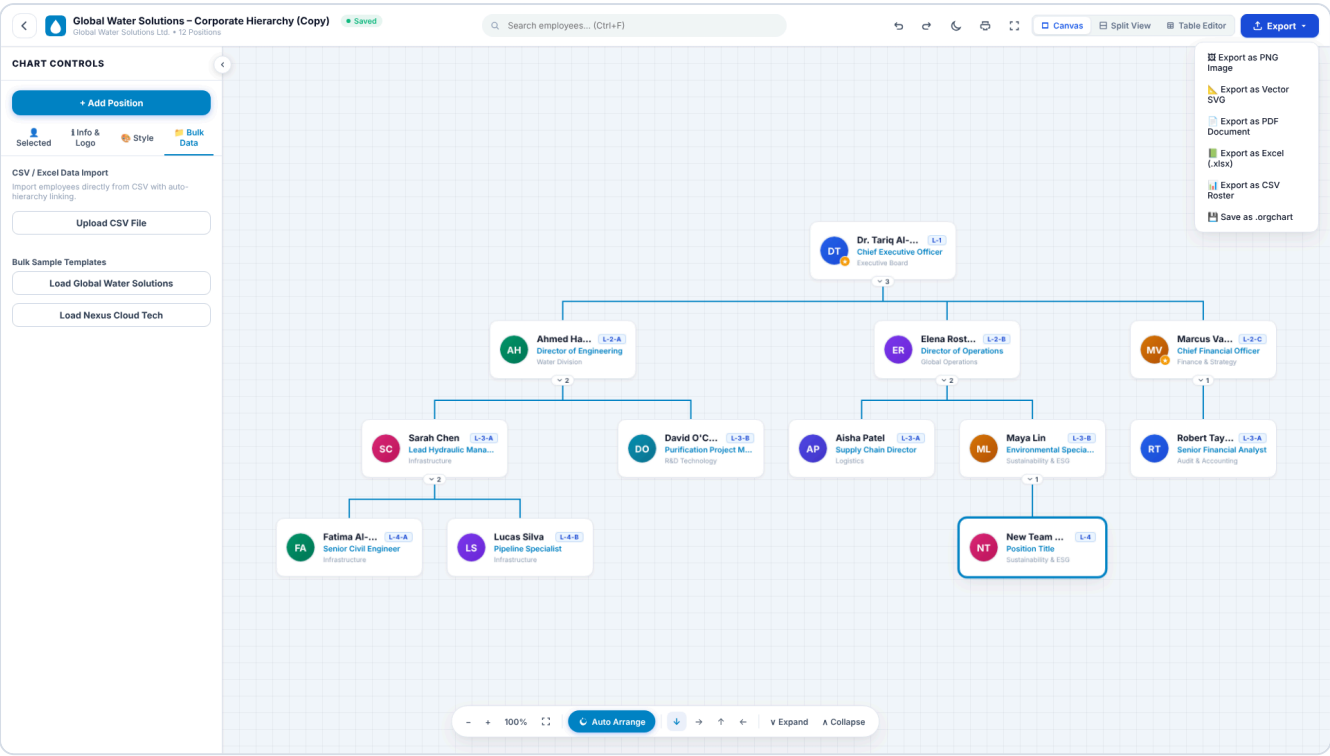

Column	Meaning	Example
Node_ID	A unique code for the position	L2-A
Full_Name	The person	Ahmed Hassan
Job_Title	Their job	VP of Engineering
Hierarchy_Level	Level code of this position	L-2-A
Reports_To_Level	Level code of the manager (empty for the top)	L-1
Department, Email	Optional details	Engineering

The imported chart, arranged automatically.

08 Exporting, printing and sharing

Click **Export** in the top bar.

The Export menu.

Export	Use it for	Edition
PNG image	Slides, e-mail, documents (high resolution)	Free (small watermark) / Pro
Vector SVG	Large posters and print shops	Pro
PDF document	Reports and printing	Pro
Excel (.xlsx) / CSV roster	The staff list as a table	Pro
Save as .orgchart	Share the chart or keep a backup	Free

Print (top bar) prints the chart. Charts are saved automatically in the app; use **Save as .orgchart** to share or archive.

Upgrading to Pro

- 1 Click **Pro Details** (bottom left of the dashboard) or any Pro option.
- 2 Buy once in the Microsoft Store window. No subscription.
- 3 Pro unlocks at once. On another PC, use **Restore purchase** with the same Microsoft account.

09 Troubleshooting and support

Problem	What to do
Cannot add more people	Free charts hold 25 positions. Upgrade to Pro for unlimited positions.
Import shows rows in red	Fix the Reports_To_Level codes in your file so every manager exists, then import again.
PNG export asks me to change style	You are in Free and the chart uses a Pro style or direction. Switch to Classic / Top to Bottom, or upgrade.
Boxes overlap after many moves	Click Auto Arrange on the floating bar.
Pro not recognised on a new PC	Use Restore purchase while signed in to the Store with the buying account.

Privacy and support

Organization Chart FB works offline and keeps your charts on your PC. Manuals, training slides and videos: engineeringtoolsfb.com/downloads.
